

All you can expect from
AKG studio-quality sound, with a plus.

AKG K545 headphones follow the Red-Dot award-winning success of the previous K550 design – with important enhancements. The spacious, AKG studio sound has been enriched with a touch of deep bass to better reproduce the features of today's music. Moreover, the K545 is equipped with two detachable cables: one featuring a 'one-button' inline, universal remote and the other with a 'three-button' MFI remote, enabling you to connect to the widest array of sound-producing equipment imaginable – including stereo receivers, Android and Windows 8 devices. Yet, it's the K545's comfortable fit and no-compromise approach to sound excellence that differentiates them on the first listen. You'll never take them off – but if you do, their convenient fold-down mechanism allows you to take them with you in their own secure carrying case. If you want to stay connected, do it in style with AKG.

HIGHLIGHTS

- ▶ Exceptional studio-quality sound
- ▶ Universal, multi-device connectivity
- ▶ Long-lasting comfort
- ▶ Foldable, Portable, Secure
- ▶ Compatible with:
iPod, iPhone, iPad, Android, Windows,
Blackberry, MP3 and computer

Made for
iPod iPhone iPad

FEATURES AT A GLANCE

- ▶ **Exceptional studio-quality sound**
Specially selected 50mm drivers and a closed-back design deliver precision sound with superior acoustic dampening and enhanced bass response.
- ▶ **Universal, multi-device connectivity**
Two detachable cables provide connectivity to a wide array of devices/equipment. Play/pause music and answer calls without removing your headphones.
- ▶ **Long-lasting comfort**
Unique folding function enables headphones to fit flat in their ultra-slim case for added portability and security.
- ▶ **Foldable, Portable, Secure**
A 2D Axis folding mechanism helps in easy storage.
